About me

My career objective is to become a proficient front-end developer and then a full-stack developer. I am looking for an opportunity to participate in a responsive, scalable, and widely-used software development project to enhance my skills and knowledge in the areas of software and web development.

I used to work as an Intern web developer, so I hope with the accumulated knowledge and experience I can make a small contribution to the development of the company.

Education

| **Duy Tan University** | **Software Engineer** | 08/2019 - 06/2023 |

GPA: 3.43/4.0

Work Experiences
